

Kids and Cultures presents

Why why why in the **WORLD?**

Why does the sun come up when Rooster crows?
Why does Giraffe have a long neck and why is Rhino so grumpy?
Why does Beetle have a gorgeous coat?
...and more!

Storytellers Kristina and Timm Wenger share a 45-minute interactive cross-cultural storytelling show featuring pourquoi tales from around the world and audience participation!

The production of *Why Why Why in the World?* was underwritten in part by a generous contribution from Dutch Wonderland's International Days, September 23-24, 2006.
